SELECTED PROJECTS

- ▶ **CFA Training Online website**
Utilising and developing new modules and plug-ins for CFA's Moodle website and building a campus booking Drupal website.
- ▶ **Driving CFA Vehicles**
Interactive elements created in HTML5 that fit into an Adobe Captivate module, allowed learners to delve into scenarios, make decisions and foster critical thinking around their selections.
- ▶ **Uniting AgeWell Online Induction**
Converting a paper based organisational induction into an online format. This project encompassed the whole organisation which meant engaging with numerous stakeholders across departments.
The Induction outlines organisational values and expectations of new employees
- ▶ **Design System and Template**
Developing a new design system and templates for the delivery of online learning using Adobe XD.
- ▶ **Learner Personas**
Interviewing of UA employees throughout the organisation to create learner personas. This helped provide a tangible focus for our design, understanding our learners needs, prior knowledge and pain points.

MY DAY AT WORK

MY MISSION

Exploring interesting and effective ways for transferring information to the right people at the right time.
